

# Your Fall Hat Is Here!

## Special Prices for Friday and Saturday

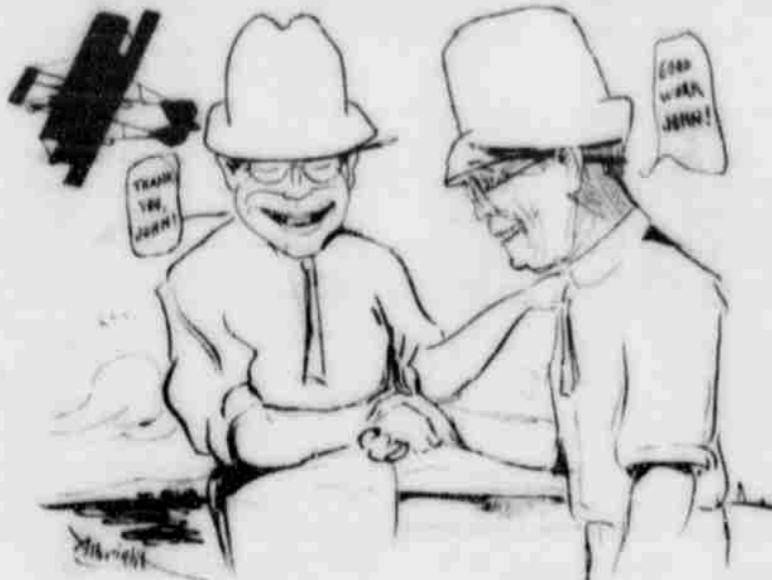

We are proud of the varied beauty and absolutely correct style of our Autumn and Winter Hats. We want every lady in Albuquerque to see them, and, as an inducement, we are making some very attractive prices for tomorrow and Saturday. Some of the most popular Gage and Burby models will be on special display, and you are cordially invited to inspect them.

## WELVART'S

312 W. Central Avenue.

MRS. BARTLEY, Manager.

**M'Manus is Wearing the Smile that Refuses to Fade Away Today**

McMANUS CONGRATULATING HIMSELF ON THE SUCCESS OF THE AEROPLANE FLIGHTS.

The success of the aeroplane flights at the state fair yesterday and today has caused John H. McManus' perpetual smile to broaden until it has "Sunny Jim's golden smile faded over John H. was congratulated on all sides yesterday and today for the success of the Walsh flights. Not that John went up into the air—he never does that—but just because he is the man who signed up with the Curtiss,

to miss the opportunity of seeing this aeroplane fly, as they will soon be as common as automobiles.

The schedule shows that Santa Fe and Albuquerque and El Paso and Dawson will meet to fight for top place. The way the teams have lined up so far there are even chances almost on every aggregation, and no one can tell just who is going to get first money. Baseball fans are so eager about these games that they hate to take time to watch such insignificant things as aviators and Bull Durham stakes.

There will be the usual attractions in the exhibition buildings. The exhibits from all parts of the state have now arrived and are in place and those who only saw the first day's showing will be surprised at the many new varieties and general excellence of the agricultural, livestock and

Each day during the progress of the State fair has had attractions of greater interest, and Friday's program promises to keep up the record, and so far eclipse all previous days that they will seem tame and slow beside this day of supreme amusement. The feature of the day will be the race for the "Bull Durham Stake" in the sum of one thousand dollars to be contested in a 2-2 pace. The large amount of money placed on this race, and the excellent showing made by the pacing horses entered in the meet will arouse great excitement at the fair grounds when Starter Brauer gives the word "Go!" Hardly less interesting will be the big program of running races which will include such events as the 5-8 mile, 6-12 furlongs, and one mile handicap, all of which promise to be thrillers from the post till the winner goes under the wire. The Indian races that had been scheduled for today will probably be called off owing to the inability of the Indians to get to Albuquerque, they having been washed out by serious floods in the line of their march.

Tomorrow will also be the last day for flights of the daring aviator, Charles F. Walsh, who has made the thousands hold their breath while he executed spirals and dives in the face of change and dangerous air currents. Aviator Walsh has demonstrated beyond all doubt the practicability of the heavier than air machine even in these high altitudes. He flew to a height of a thousand feet above the ground, he reached an altitude of 2,200 feet above sea level, which ranks well with the record breaking flights of the big international aviation meets. Anyone who does not want to be way behind the times ought not
